5 Practices Act is amended by adding Section 2BBBB as follows:

6 (815 ILCS 505/2BBBB new)

7 Sec. 2BBBB. Gas stoves.

8 (a) As used in this Section, "gas stove" means a household
9 natural gas stove or range that is used for food preparation
10 and provides at least one of the following functions:

11 (1) surface cooking;

12 (2) oven cooking; or

13 (3) broiling.

14 (b) No person shall sell, attempt to sell, or offer to sell
15 to a consumer in this State a gas stove that is manufactured on
16 or after January 1, 2024 unless a label on the gas stove bears
17 the message:

18 WARNING: Gas stoves can release nitrogen dioxide and
19 carbon monoxide inside homes at levels exceeding the EPA's
20 standards for outdoor air quality. The presence of these
21 pollutants may exacerbate pre existing respiratory
22 illnesses or lead to the development of asthma, especially
23 in children. Gas powered stoves should never be used

1 without a ducted vent hood to reduce exposure to these
2 emissions. Visit (website link) for a guide on how to
3 choose the right range hood for your stove.

4 The label shall be attached to the gas stove in a
5 conspicuous location. The label must be in a type size no
6 smaller than the largest type size used for other consumer
7 information on the product. The Attorney General may adopt
8 rules regarding the placement and format of the label.
